

I pay a premium for services of XM Satellite Radio and its traffic and weather channels. In my job, I spend an awful lot of time behind the wheel. Traditional stations are full of commercials and chatter that simply is a waste of my time. That's why I purchased the equipment and services of XM Radio.

I am appalled that the National Association of Broadcasters wants to dictate what I am permitted to hear from my paid services. Where are my rights?? I respectfully ask that the FCC reject the NAB's Petition 04-160 and support XM's ability to provide the kind of programming that I demand, deserve and pay for.

Thank you for your time.
